SKILLS

Cloud Computing: Mainly GCP
APIs: Development and Usage
DevOps: Docker, Kubernetes
Database Management: SQL & NoSQL

EDUCATION

Computer engineering
Universidad Nacional de La Plata
(UNLP)
2020-2025

LANGUAGES

Spanish (native)
English (advanced)

ABOUT ME

I'm Tadeo, an advance student in Computer Engineering. I've hands-on experience in building Google Cloud applications and hold Google Cloud Skills Boost certs. I'm also keen on exploring AI and machine learning to drive impactful solutions.

Big believer in teamwork, problem-solving, and looking to contribute my IT expertise to drive growth in a dynamic organization.

TECH TALES

Work Experience

At 2024

Programming Instructor - Object-Oriented Programming with C#

C#

Sicos Informatica - 6m - 2019

- Conducted comprehensive courses focused on Unity Engine game development using C# programming.

Freelance Desktop Application Developer

Java SQL

Self-Employed - 1yr - 2020

- Designed, developed, and deployed a proprietary desktop stock management application using Java Swing and MySQL.

Some Technical Projects

At 2024

Stocks Sentiment Analysis Dashboard

ML/AI GCP NoSQL

- Flask app using Google Cloud for sentiment analysis on stocks. Employs generative AI for news analysis, presenting data on a user dashboard. Includes an XGBoost ML model for predictive analysis.

CI/CD with Jenkins, GitOps: Deploying a Flask App to local Kubernetes

Jenkins AWS Flask

- Local automated deployment pipeline using Jenkins, Kubernetes, Docker, and ArgoCD for efficient continuous deployment on AWS.

Portfolio website Django

Django Docker

- A personal portfolio website using Django, Docker, and PostgreSQL to showcase my web development projects and skills.

See more at my webpage: <https://www.tadeodeluca.com>

Certifications

At 2024

Google Activate

- Cloud Computing Google Activate

Google Cloud Skills Boost

- Google Cloud Big Data and Machine Learning Fundamentals
- Create and Manage Cloud Resources
- Perform Foundational Infrastructure Tasks in Google Cloud
- Networking Fundamentals in Google Cloud

IBM - edX

- Machine Learning with Python
